

Cost Information

This guide is in accordance with the Solicitors Regulation Authority's transparency requirements, which come into force from 6th December 2018. It is to be used as a guide only. Every individual case is different and will be assessed following an initial appointment. It is possible, in certain circumstances for costs to vary from the below at the firm's discretion. Please contact the Office on every occasion to discuss costs where an accurate quote can be given once all information is provided.

We will ensure that we fully explain:

- How we calculate our fees
- The likely costs involved
- Any additional costs incurred
- Any costs that may be awarded to you (from other parties).

Depending on your issue we may offer funding options (although, for the avoidance of doubt, this firm does not offer Legal Aid). We will inform you at the outset if any funding options apply to you.

We also have discretion to vary the fees below, depending on the case but we will always communicate this with you.

Property and Conveyancing Approximate Fees

Our fees are based on an average number of letters, telephone calls, and time spent in preparation of the contract and dealing with enquiries. We also ensure funds are transferred properly for completing the transfer, and that the property is registered lawfully in your name. Such services will be charged at the following rate per hour;
